Ventilation is vital when you visit or work in a nail salon. Most times you walk into a salon and breath in toxin-filled air. The health of our customers and employees is very important to us so we decided to take the precautionary steps to become the ONLY salon in Arizona that utilizes an effective ventilation system. This system captures and removes the contaminants in the air before they harm your respiratory system. We take pride in protecting your nails AND your health.

In addition to our state-of-the-art equipment, we have developed a unique ambiance reflected by natural theme warm decor. With a multitude of advanced services and a VIP room as well as unique style, VIP is the place to be. We look forward to your visit and a long-lasting relationship.
